- III. Public Comments

Jim Bowden presented his personal information and opinion regarding the Peotone Community School District 207U Referendum.

Colleen Benjamin inquired about the road construction being done on County Line Road, East of Gougar regarding Fork Creek flooding. She asked if there was an impact study done for the North because the work done has caused a damn like effect and the culverts are not big enough to handle the drainage. She respectfully asked if construction could be halted and an impact study be doon for the area to the North. Ray Nugent thanked Colleen for coming to the meeting and acknowledged he is aware she is unhappy. Ray stated he can take the culverts out and place them further down, but it would have to be on an angle so it would not change the water way. He placed them higher so the road wouldn't wash out, as it has been doing. This project was expense shared 50/50 with the County and the Road District and there were donations for pipe and stone. There has been no contact with national resources, as townships do not have to do that.
